Our amazing Treatment Team who work very closely together and provide excellent care. Their work ethic and shared results are indicative of the love they have for healing patients' skin issues. Multiple patients we have admitted with pressure injuries have been completely resolved. One particular patient recently admitted with large Stage III posterior area wounds. These wounds are totally healed. Our Treatment Team truly share a passion for extraordinary care! We are so grateful for you!

Mindy is very kind and very proactive. Whenever I had a problem to be solved during my stay at Garden Park, Mindy could solve it with sincere compassion. On the night of my re-admission I had a serious craving for Jello. When she discovered that the kitchen had run out, Mindy didn't hesitate to drive offsite to quickly bring me a few days supply of Jello. No one asked her to do that - she recognized a need and made sure it was met. She always took the time to listen to me and was patient with the many questions I asked of her. She anticipated potential issues to assure that my care was both timely and competently provided. Mindy has very special skills!

Linda is an exceptional individual and a valuable member of our team. Her genuine concern and quality of care for our resident have made her entire family feel at ease. During a recent visit, grandpa required a change of pants. When no pants were found in the closet, Linda went to the laundry and found his unlabeled pants. She then labeled them and checked all other articles of clothes to make sure that all of his belongings were labeled. THANK YOU LINDA!

Congratulations!

Although this is Nhu's first experience in a SNF, her kind, caring nature resonates with her patients. She always has a smile, a positive attitude, and is willing to help in any way necessary for her Garden Park Team. When there is an emergency, she frequently agrees to cover any shift and any station. We had a last-minute PM Shift call-off recently and after calling all other nurses who were unable to help out, we reluctantly once again called Nhu. She was happy to cover the shift... Again! We are so grateful for Nhu's solid clinical competency, cheerful, caring personality, and strong sense of Teamwork!
